

MAX DROP UP TO 14M MAX LOAD UP TO 200KG

The Scenery Hoist combines innovative design with the highest standards of construction and ease of installation for payloads up to 200kg.

It is ideal for suspending scenery flats, curtains, lighting, speakers and a whole list more. It can be suspended by a hook, placed on a grid, on a manual carriage for IFF rail or IPE beam, on a motorized carriage for rail. The Scenery Hoist is manufactured in accordance with the DIN 15560-46.

TECHNICAL FEATURES

FF3927

Maximum load/ext.	200kg at 12m / 160kg at 14m
Hoist construction	L0,32mxW0,51mxH0,69m
Self weight motor unit	87kg
Counterweight hook	23kg
Gear motor	angle of slope 3°06' 1.5kw three-phase max torque 290Nm permanent lubrication
Lifting rope	Ø 4mm x 2 breaking load 1200kg
Lifting speed (average)	100mm/s
Top and bottom safety	1+1 adjustable switch for max and min position
Limit safety	1+1 limit switch
Slack wire safety	2 safety switches (1 switch for rope)
Overload safety	1 safety switches
