Description

Compact, powerful, versatile... this is the One. Gantom listened to some of the most skilled lighting professionals in the industry, and based on their input, designed the Gantom One; the pinspot to rule all pinspots. Compared to a traditional 30W pinspot, the One runs cooler and safer on far less power, has much cleaner optics, and can even be run on batteries. The Gantom One includes an integrated, easy-to-use accessory mounting system, where you can choose from an array of glare control, color filters, and diffusers to achieve any effect you desire without tools or hassle.

Physical
L: 104mm (4.09") W: 60mm (2.36") H: 60mm (2.36")
Weight: .230kg / .51lbs
Black anodized aluminum
Power
.386a~.180a 12~24vdc CW .345a ~ .196a 12~24vdc
